

One Day in a Fairy Tale

Written by Danica Tattrie

Rainbow the unicorn lived in a huge castle with her best friend Danica, the princess, and her mean brother Dredon.

One day, Dredon found a magic wand and put a spell on the castle, where it was night all the time.

Rainbow the unicorn was very brave
and poked Dredon in the butt when he
wasn't looking.

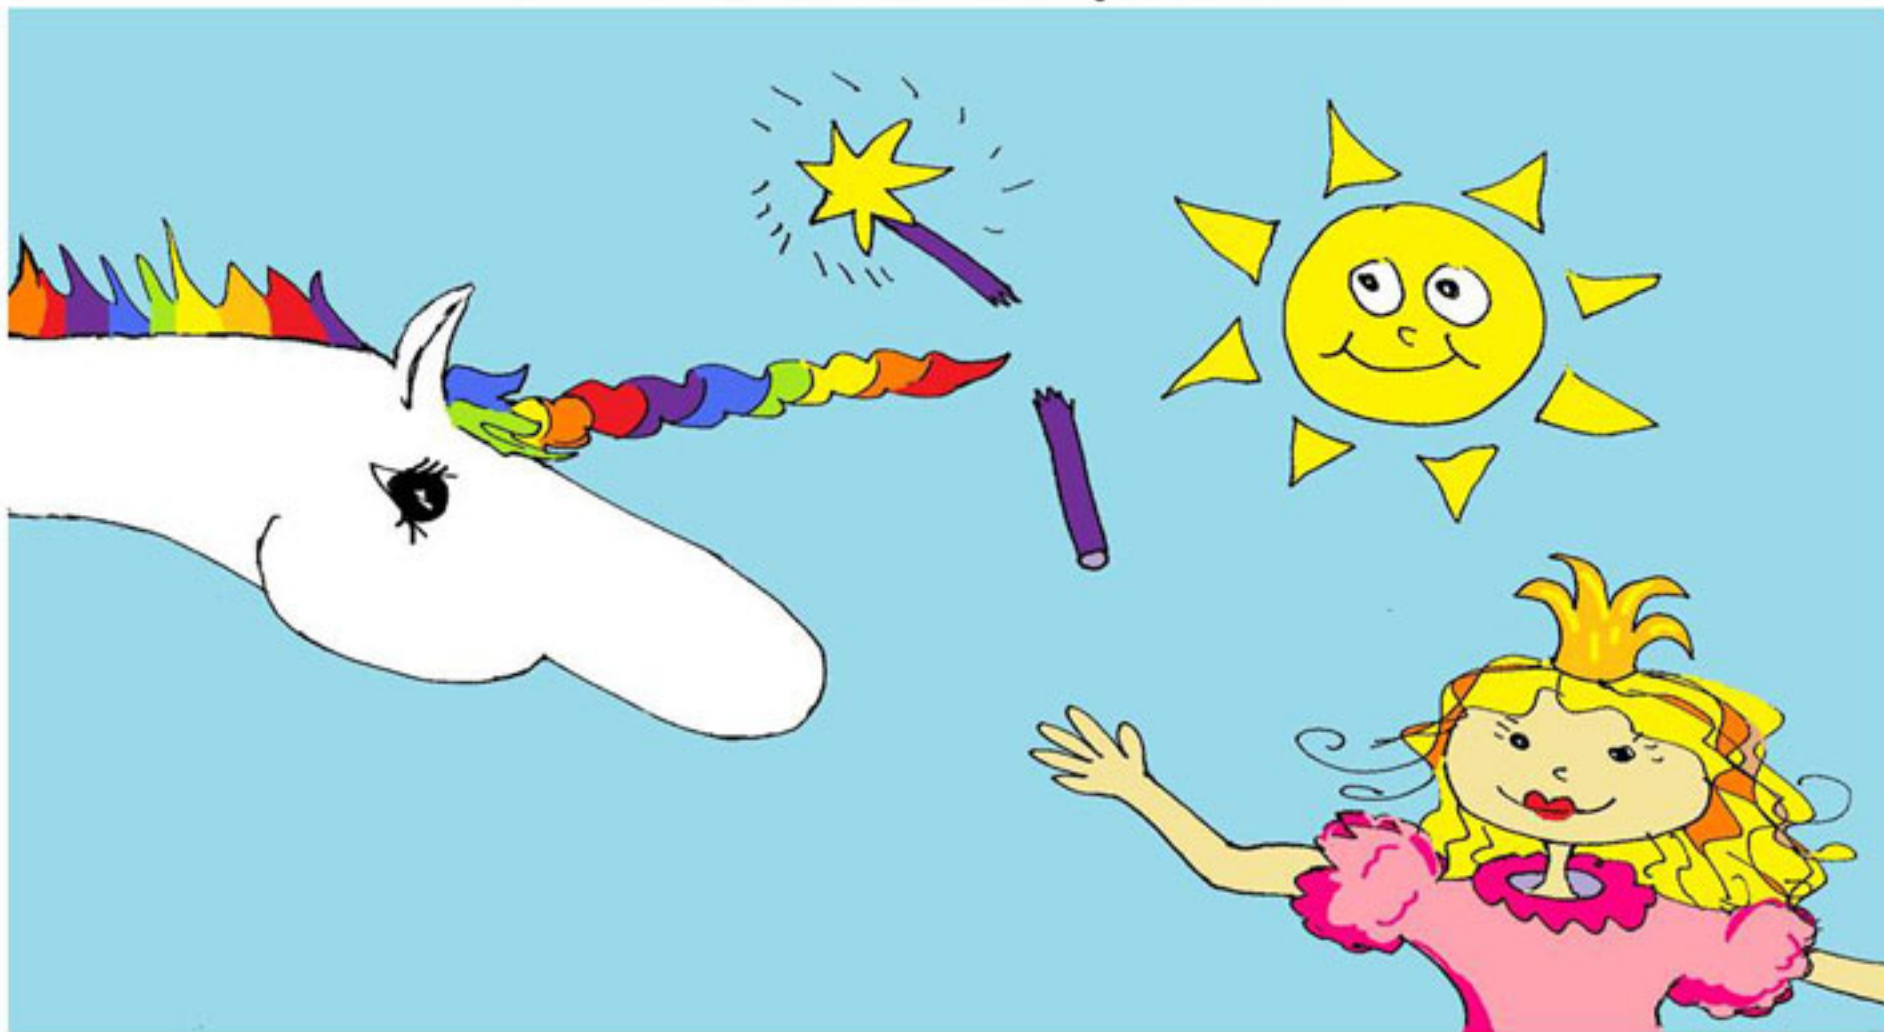

Dredon fell into a moat full of crocodiles!

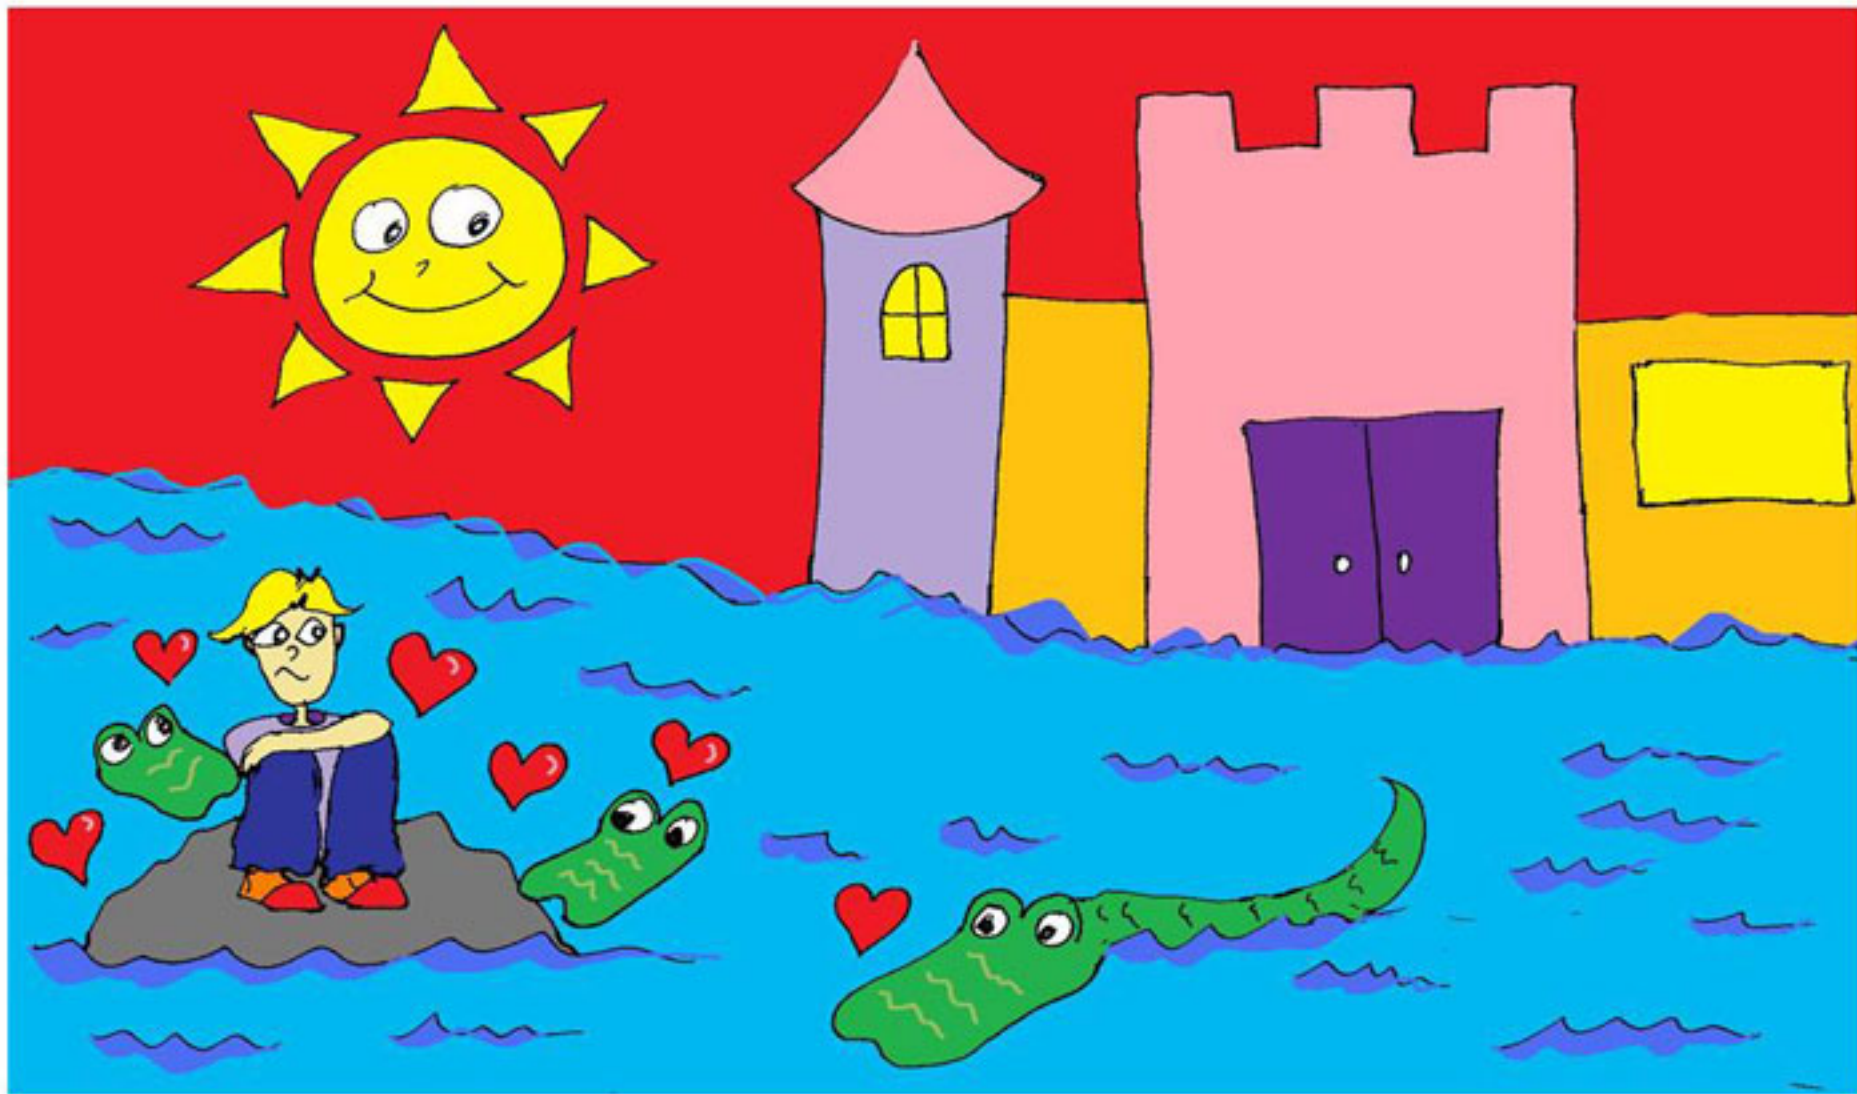

The crocodiles were so happy to have a new friend that they fell in love with Dredon. They kissed and hugged him for the rest of the day.

Rainbow the Unicorn found the magic wand, poked it with her horn and broke it into pieces.

The spell was broken and the sun
came up.

Everyone lived happily ever after.
